

PROGRESS REPORT (10%)	BET3683 FINAL YEAR PROJECT I
Student Name:	Program:
Student ID:	Semester:
Project Title:	

CO2: Ability to practice positive attitude towards research activities and function in project proposal.			
1. Problem Statement & Objectives			
Unacceptable (0 – 3)	Basic (4 – 5)	Proficient (6 – 7)	Distinguished (8 -10)
Demonstrates unacceptable problem statement related to industrial problem/ needs.	Demonstrates limited problem statement related to industrial problem/ needs.	Demonstrates an acceptable problem statement related to industrial problem/ needs.	Demonstrates good problem statement related to current industrial problem/ needs.
Demonstrates unrelated objectives to the stated problem statement.	Demonstrates a limited objectives to the stated problem statement.	Demonstrates an acceptable objective to the stated problem statement.	Demonstrates good objectives and relate it to the stated problem statement.
2. Content/ Structure			
Unacceptable (0 – 3)	Basic (4 – 5)	Proficient (6 – 7)	Distinguished (8 -10)
Addresses a few of the content areas.	Addresses some of the content areas.	Addresses most content areas.	Addresses all specified content areas.

The material does not support the topic. The use of engineering terms and jargon does not match the audience's knowledge level.	Material minimally supports the topic. Use of engineering terms and jargon minimally matches audience knowledge level.	Material sufficiently supports the topic. The use of engineering terms and jargon mostly matches the audience's knowledge level.	Material abundantly supports the topic. Use of engineering terms and jargon matches audience knowledge level.
3. Project Planning			
Unacceptable (0 – 3)	Basic (4 – 5)	Proficient (6 – 7)	Distinguished (8 -10)
Gantt chart without milestones Unrealistic plan No description of the plan	Has the following item: Gantt chart & milestones But: Unrealistic plan No description of the plan	Has the following item: Gantt chart, milestones Realistic plan, description of the plan	Has the following item: Gantt chart, milestones, realistic plan, detail description of the plan including progress
4. Industrial Relevancy			
Unacceptable (0 – 3)	Basic (4 – 5)	Proficient (6 – 7)	Distinguished (8 -10)
Demonstrate an unacceptable topic in current demand for industrial application. Use obsolete tools/equipment/software that irrelevant to the current technology.	Demonstrate an average topic in current demand for industrial application. Use latest tools/equipment/software that relevant to the current technology.	Demonstrate a good topic in current demand for industrial application. Use latest tools/equipment/software that relevant to the current technology.	Demonstrate high demand topic for industrial application with potential collaboration with the industries. Use latest tools/equipment/software that relevant to the current technology. Adopt IR4.0 technology.
5. Expectation & Dateline			
Unacceptable (0 – 3)	Basic (4 – 5)	Proficient (6 – 7)	Distinguished (8 -10)
The student did not meet the basic	The student did not meet the basic	The student has partially met the	The student has fully met the

expectation and dateline based on the task given	expectation. However, the student has completed the task on time	basic expectation. However, the student has completed the task on time	expectation based on the task given with an effort to complete the task before the given dateline
